

DOYLESTOWN TOWNSHIP

"PRESERVING THE PAST, EMBRACING THE FUTURE"

SUMMER 2020 | VOLUME 17 | ISSUE II

A Message From the Doylestown Township Police Department

It is apparent that the death of Mr. George Floyd has and will continue to bring about change across the nation. The failure of law enforcement to provide the basic protections afforded to all citizens is unacceptable under any circumstance.

All Doylestown Township police officers undergo an extensive background investigation prior to being offered the opportunity to become a member of the department. Each officer then takes an oath to support, obey and defend the Constitution of the United States and of the Commonwealth of Pennsylvania and to enforce the law without consideration of a person's race, color, sex, religious creed, sexual orientation, age, national origin, ancestry, handicap or disability.

Many departments across the nation will be left scrambling to implement changes to meet new standards that will now become mandatory across the state. Our community can rest assured that the Doylestown Township Police Department will not be scrambling because our officers have been working under these standards for many years. Our officers undergo annual use of force training for both lethal and non-lethal weapons and participate in hands on training for self defense and control tactics. Our officers have also been trained in verbal de-escalation techniques and crisis intervention.

Township Manager

Stephanie Mason

Continued from page 1:

This training means nothing if there is no oversight and there can be no oversight if we do not know what we are looking for. As the nation moves forward with more requirements on use of force reporting, it will be a necessity for all agencies to be consistent with what needs to be reported. In Doylestown Township the answer to that question is very simple. Our officers are required to submit written reports for each use of force incident which they witness or are involved in. This includes any level of force, on any individual, who is less than 100% compliant with the officers' request. Each use of force report is reviewed by one of our use of force instructors who will identify potential policy violations and/or training needs. The reviews are then sent to the administrative staff for a determination as to whether the level of force used was justified under the circumstances presented.

Doylestown Township police officers will continue to wear body cameras which serve many functions and in cases such as these, the body cameras become a law enforcement tool to try and provide transparency into what may have taken place.

Our officers continuously show that they are compassionate individuals who are willing to sacrifice their safety for our residents. It is our moral and professional duty to reflect the values of our community, and we are proud and committed to upholding this obligation.

Respectfully:

Chief Dean Logan, Doylestown Township Police, Barbara N. Lyons, Director of Public Safety, Sgt. Charles Zeigler, Officer Timothy Reihl, Officer Joseph Zuchero, Officer Alex Weldie, Sgt. R. Scott Jones, Officer Brian Maloney, Officer Patrick Furlong, Officer Matthew Hershowitz, Sgt. Jeffrey Stich, Officer Jared Courts, Officer Donald Lawson, Officer Daniel Carr, Sgt. Shaun Magee, Officer Jessica Whiteside, Officer Daniel Naftulin, Cpl. Christopher Power, Det. William Mokriski, Det. Cory Caraballo, Clerk Holly Dodson, Clerk Janet Casey, Crossing Guard Rose Reith.

Preparing for Hurricane Season During the COVID-19 Pandemic

While the nation is still recovering from the coronavirus (COVID-19) we are also still on a normal calendar for natural events. Hurricane season is just around the corner and we still need to prepare and be wary of the effects of hurricane season. The Environmental Protection Agency (EPA) is forecasting a particularly active season this year with the US National Oceanic and Atmospheric Administration forecasting three to six major hurricanes.

When planning to visit the beach or family in an area that could be affected by a hurricane, make sure to take the necessary precautions and have measures in place. Plan these trips ahead by checking the weather forecast, and paying attention to local notices regarding inclement weather during your visit.

To be prepared for an emergency, Bucks County recommends that residents put together a household disaster kit and include a Go-Bag for each family member within the kit. Some recommended items include potable water, food, medicine, a flashlight, first aid kit, and a battery powered radio. Due to the global pandemic and the safety measures in place, home delivery of these supplies is the best and safest option; however, that may not be a possibility for everyone. If you are personally going out to purchase supplies take measures to protect your health as well as the health of others.

Located on the Doylestown Township website (doylestownpa.org) is an emergency operations plan which outlines plans for many different types of possibilities. This document contains the responsibilities of municipal authorities as well and checklists.

Make sure to familiarize yourself with the terms that are used to identify a hurricane:

- A hurricane **watch** means that a hurricane could be possible in your area. If this happens make sure to monitor weather and news for developments.
- A hurricane **warning** means a hurricane is expected in your area. Listen to weather and news outlets and listen to orders issued by authorities.

If you are staying in an area that is close to a storm surge area take extra precautions. Whether that is fortifying and sheltering in place, planning evacuation routes or having the proper amounts of supplies available, preparation is necessary.

Make sure to keep up to date with local guidance regarding any and all effects from hurricanes and tropical storms during this season. Remember to stay healthy and safe!

Stay Safe During a Hurricane!

Stay Informed

- Listen for emergency information and alerts.
- If told to evacuate by local officials, do so immediately.

Dealing with the Weather

- Determine how best to protect yourself from high winds and flooding.
- Take refuge in a designated storm shelter, or an interior room for high winds.
- If trapped in a building by flooding, go to the highest level of the building.
- Do not walk, swim, or drive through flood waters.
- Stay off bridges over fast-moving water.

Personal Safety

- If you must go to a community or group shelter remember to follow the latest guidelines from the CDC for protecting yourself and family from COVID-19.
- Be prepared to take cleaning items with you like soap, hand sanitizer, disinfecting wipes, or general household cleaning supplies to disinfect surfaces you may need to touch regularly.
- Maintain at least 6 feet between you and persons not part of your immediate family while at the shelter [by avoiding crowds or gathering in groups] as much as possible.

Keeping an Eye on the 2020 Budget & Potential Impacts of COVID-19

Like many municipalities across the nation, Doylestown Township is feeling the impacts of COVID-19 on our 2020 budget. Due to the Pandemic, we incurred expenses that had not been planned, such as acquiring Personal Protective Equipment for our emergency responders and staff. Also, we've noted a decline in revenue. Currently, we are seeing a slight decline in our Earned Income Tax revenues (EIT). Our Finance Department is monitoring the numbers to see if the impact is due to timing because of the July 15th extension on when EIT is to be filed, or one that is due to the 7% unemployment we're experiencing in the Central Bucks area. The Township staff is working with the volunteers on our Ways and Means Committee to make sure the Township can weather the storm and continue to provide the services the Community expects.

Back in late March as Coronavirus was just beginning to take hold in our Community, the Township staff immediately recognized that the Pandemic could have an impact on the Township's financial position. We immediately began monitoring the Township's revenues and expenditures and communicated these concerns to the Board of Supervisors.

Through the Bucks County Consortium of Municipalities, of which the Township is a member, we participated with other member municipalities to have Economics Strategy Insight Consultants (ESI) provide a report on potential budget impacts to EIT, Real Estate and Realty Transfer taxes for 2020 and even 2021. Their study confirmed that the Township had reason to be concerned. ESI attended the June 16, 2020 Budget Work Session and shared the results it prepared for the Consortium members. Potentially, the Township could see a 6-12% drop in EIT revenue over the next two years, a 3-5% dip in real estate taxes and a 9-17% decline in realty transfer taxes. All of these categories impact the Township's General Fund, which pays for general services like administration, code enforcement and police services for the community. The finance staff also modeled historical data from the 2008 recession for the Board of Supervisors as a comparison. The projected impacts from the Coronavirus on the Budget may be greater than what we saw in 2008.

The Township staff and our volunteers will continue to monitor the situation and report to the Board of Supervisors monthly on the Township's financial position. For additional information go to the Township's website www.doylestownpa.org, and view minutes from our Budget Work Sessions.

A Message from Samuel Kolodney, Township Tax Collector

Qualified homeowners can save over \$200 on their next Central Bucks School District tax bill just by filling out an application.

Everyone who has a primary residence in Bucks County is qualified to receive the Homestead Exclusion regardless of income level. The only disqualifier for the Homestead Exclusion is if you own more than one property, in which case the additional properties beyond your primary residence are not eligible for this benefit. Application forms for the Homestead Exclusion are located online under the "Home/Farmstead Application" link on the top navigation menu at <http://www.buckscountyboa.org/pt/main/home.aspx>.

If you are uncertain, whether the Homestead Exclusion is already applied to your property, you can look at the second panel on your CBSD Real Estate Tax Bill. This panel has a white background and the information is under the title "Calculations for Act 1 – Homestead Farmstead Exclusion". If the Homestead Exclusion (Adjustment) box lists "NA" and this bill is for your primary residence, you need to fill out an application and mail it to the Bucks County Board of Assessment. If you have any remaining questions, feel free to call my office at 267-247-5066 and I will gladly help you out. It's an honor to serve you!

A Message from the Municipal Authority

The Doylestown Township Municipal Authority (DTMA) is proud to continue to serve our local communities with high quality drinking water. These past few months presented some challenges to safely keeping the water flowing. However, DTMA continued to provide a safe, economical water supply twenty four hours per day, seven days a week.

Our water operators were providing vital services by keeping the water flowing during the COVID- 19 pandemic while adapting to the new social distancing guidelines. They performed their duties safely while making sure the water was safe to drink.

In addition, in early June, DTMA navigated the prolonged power outages resulting from severe thunderstorms. During the event, every DTMA customer received the level of service they have come to expect. There was zero water service interruptions during this event. This was the result of a combination of recent DTMA capital investments in emergency generation power equipment and a local, dedicated workforce that efficiently responds to emergencies.

DTMA is pleased to be your locally controlled water provider. DTMA has a vested interest in maintaining fair rates and in returning those rate dollars back to the public in the form of appropriate capital investments to ensure safe and reliable service. The private, for-profit water utilities in our area must make a return on their capital investment to their shareholders. DTMA does not have to consider shareholders – just our cherished customers.

Doylestown Television (DTV) Comcast Channel 22 / Verizon Channel 31

DTV is a full service Government Access Channel, providing residents of Doylestown Township with access to live and replayed Board of Supervisors meetings, educational programming and information about the services the Township provides to our residents.

Additional major programming includes:

- Environmental topics and speakers
- Boards & Commissions reports
- Stormwater information
- Senior information
- Doylestown Historical Society information
- Medical information

The programming is supplemented by a scrolling bulletin board that provides municipal information and news about departments, programs, events, and more!

Board of Supervisors Meeting

BOS meetings are broadcast live and replayed everyday after the meeting at 12:00pm & 7:00pm!

Meadow Management Workshop Brings Immediate Change

Working together with the Environmental Advisory Councils (EAC) of Doylestown and Warrington Townships, New Britain Borough's Bird Town, Bucks Audubon, and Bucks County officials, a Meadow Management Workshop was organized to educate and encourage county municipal leaders to stop or reduce mowing. This effort supports the development of meadows and grasslands to create greater habitat for grassland birds and pollinators and also reduces mowing costs, reduce mowing in appropriate public spaces, and helps with storm water management and filter pollutants.

The first workshop was held on February 20, 2020 at the Courthouse in Doylestown with over 80 municipal leaders and employees, local supervisors, EAC members, and nonprofits from across the county participating and hearing presentations from Natural Lands, Pennsylvania Environmental Council and DCNR staff as well as

lessons learned from officials in Upper Dublin and Warwick Townships and Bucks County. With reduced mowing, already this April, Meadow Lark and Bobolink, as well as warblers, have been seen nesting at the Bradford Dam area.

What is a Meadow and How Can You Help?

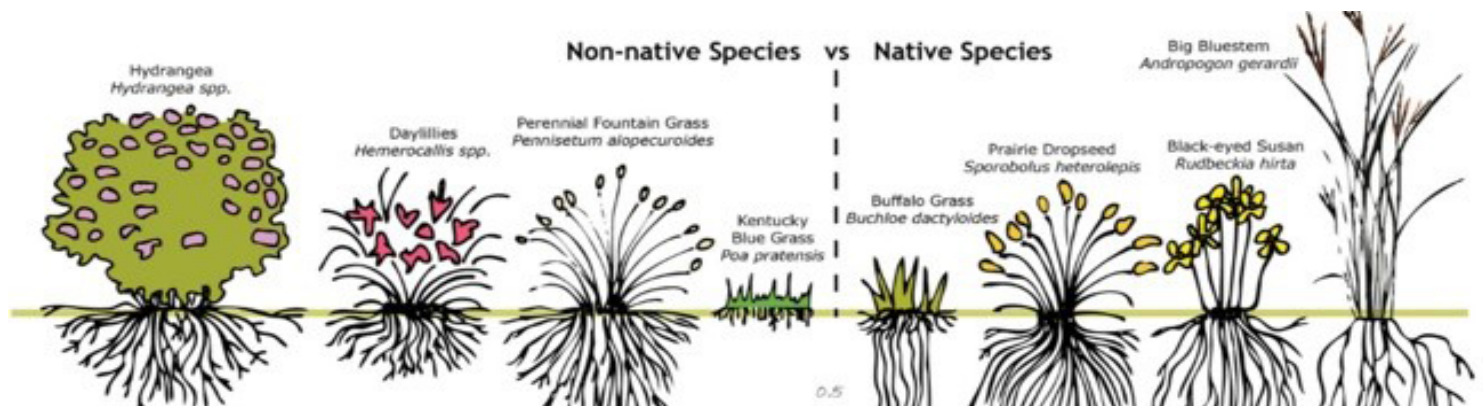

A meadow is a place of great beauty and wonder, filled with birdsong, unique flowers and plants and habitat to many animals, large and small. You might see a gold finch gathering seed down to line its nest or a bushy tailed fox pouncing in pursuit of a mouse, or a rabbit snuggled up in the reeds finding shelter from a storm. Deep blue juniper berries attract a darting catbird, milkweed flowers beckon passing monarchs, and golden rod serve as filling stations for bees and skippers. Below, beyond our sight, roots grow deep and long, filtering and storing precious rainwater, sending it deep into our aquifers.

This all lies quietly in our lawns dormant, ready and waiting for a chance. Stop mowing and watch the magic emerge. It can even be just a small corner of the yard to start. Create paths around the outside and one artfully through the middle to gain entry to see all the wondrous life right beyond the doorstep.

Mowing will be needed once in late fall to early spring to hold back the forest. Invasive plants should be kept in check or removed. Please share with your neighbor and help create a connected green pathway, restoring native habitats throughout our communities. Together we can create green corridors of contiguous habitat to support our native birds, pollinators and plants.

Here is a link to help you learn more and get started:

<https://pecpa.org/wp-content/uploads/Water-Resources-How-to-Create-a-Meadow.pdf>

5 Things You Can Do To Make a Difference in Your Watershed

As storm water management becomes increasingly important, so does educating people on different ways that they can protect the watershed in their area. An informed and knowledgeable community is crucial to the success of a storm water management program.

- 1. Learn about your watershed.** Start by using the Watershed Region Information website to find your watershed address and learn about its environmental health. Also be sure to check out EPA's Wetlands web page to learn about the importance of wetlands.
- 2. Identify ways you can help prevent polluted runoff from your home or farm.** Check out Give Water a Hand, the EPA's Nonpoint Source Program website and the U.S. Department of Agriculture's Natural Resources Conservation Service website to find out how you can be part of the solution, instead of part of the problem.
- 3. Find out about model ordinances to protect water quality at EPA's Model Ordinances to Protect Local Resources web pages and the Center for Watershed Protection.** Learn about alternatives to current development patterns such as low-impact development and smart growth.
- 4. Create a wildlife habitat in your backyard, workplace or schoolyard.** Certify your backyard or schoolyard as part of the National Wildlife Federation's Backyard Wildlife Habitat Program or Schoolyard Habitat Program.
- 5. Do your part to protect drinking water sources.** Get information about drinking water and how it can be protected at the EPA Source Water Protection website. Find out more about how your drinking water is tested, treated and protected by reading your utility's yearly water quality report.

For more information about ways you can help protect your watershed, check out these websites:

Environmental Protection Agency - www.epa.gov

Give Water a Hand - <http://www.uwex.edu/erc/gwah/>

U.S. Department of Agriculture - <http://www.nrcs.usda.gov/>

Center for Watershed Protection - <http://www.cwp.org/>

National Wildlife Federation - <http://www.nwf.org/>

All Township trails and open space remain open and available for use!

The Dog Park, Kids Castle, playground equipment, Sensory Trail, restrooms, courts, fields and pavilions in our Township parks are open but they are not wiped down or sanitized. **Play at your own risk.**

We encourage you to get outside and enjoy our bike and hike trails, but please ensure that you are maintaining social distance from others and not congregating in groups.

It has been an interesting Summer for Doylestown Township Parks & Recreation. As we all are experiencing, coronavirus has challenged us to rethink the way in which we live, work and play. For the summer, that meant figuring out a new way to offer camp-style programming for the youth in our community. Thanks to some creative thinking from the Bucks County Recreation Council, "Camp-in-a-Bag" was born! Though the participating municipalities each offered a different version of their Camp-in-a-Bag program, it was clear that there was demand for activities that families could do in the safety of their own homes.

Our Doylestown Township Camp-in-a-Bag offered six-weeks of camp-style activities for youth entering grades 1 through 5. Every Monday for those six weeks, a new bag of activities and supplies was dropped off on participants' doorsteps (or picked up at the Township Building). Activities included everything from creative arts and STEM projects, to planting, nature exploration, outdoor summer fun, nutrition lessons, and more! All activities encouraged the kids to use their imagination, try new ideas, and put their own spin on what they created.

More than 50 children participated in our Camp-in-a-Bag program! And thanks to a private Facebook group that we set up, campers were able to connect with each other as though they were at a real in-person summer camp. With help from adults, they shared finished projects, showed progress from others, and offered feedback for our activities.

The Summer may have been a different one for all of us, but it is our hope that Camp-in-a-Bag provided a little extra at-home fun for our campers and their families!

Township Receives Grant To Install Pedestrian Beacons

Doylestown Township will be installing two (2) new Rectangular Rapid Flashing Beacons (RRFB), on Almshouse Road, at the Turk Park parking lots, and South Easton Road at Turk Road. The purpose of these new beacons will be to supplement standard pedestrian or school crossing signs at uncontrolled marked crosswalks. In 2019, a RRFB was installed at the intersection of Lower State Road and Wells Road as part of the Bike and Hike trail project from The Market at DelVal, along Lower State Road to the YMCA.

The Rectangular Rapid Flashing Beacons are high-intensity beacons mounted at the crosswalk to warn oncoming traffic that a user will be crossing. These devices can be activated by the user or by pushing a button manually. Once activated, the beacon will flash rapidly for a fixed amount of time for users to cross the crosswalk.

The engineering and construction of the new RRFB's is funded through the PennDOT Automated Red Light Enforcement (ARLE) Transportation Enhancements Grant Program, which was established in 2010 in accordance with Vehicle Code (75 Pa.C.S.) §3116(l)(2) and §3117(m) (2). This is a reimbursement program with no match requirement for the Township. The program itself is funded through the net revenues obtained from fines collected by the red light enforcement cameras located in five counties in southeastern PA.

To date, Doylestown Township has received almost \$950,000.00 in ARLE grant funding from PennDOT for this project and other traffic signal projects.

LICENSE YOUR DOG.

Did you know?

All dogs three months of age or older must be licensed by January 1 of each year. Violators could be cited with a fine costing up to \$300.00 per violation plus court costs.

Why?

- If your dog gets lost, it is the safest way to get him/her back
- It allows the Bureau of Dog Law to protect your dog
- It's the law

How much does a dog license cost?

Annual license fees are as follows

General:

Dogs that are sprayed or neutered...\$6.50
Dogs not sprayed or neutered.....\$8.50

Senior Citizens (65 years of age and older) or persons with proof of disability:

Dogs that are sprayed or neutered...\$4.50
Dogs not sprayed or neutered.....\$6.50

How do I get more information?

Contact the Pennsylvania Department of Agriculture at 717-787-3062 or visit www.agriculture.pa.gov/Animals/DogLaw/Pages/default.aspx

To purchase your 2020 dog license, visit www.licenseyourdogPA.com

A Message from State Representative, Wendy Ullman

We are being tested as never before by this global pandemic. According to the CDC, as of July 21, 2020, there have been 3,761,362 cases of COVID-19 and 140,157 deaths in the United States. Experts are predicting that a second wave in the fall is likely.

As terrible as this time is, I've been heartened by the way our community has come together to support each other and halt the virus' progress.

In spite of the recent spike, we've successfully kept cases low by working together as a community to follow the balanced, reasoned and comprehensive policies our commonwealth has adopted. Thanks to you, Pennsylvania is in much better shape than many of its neighbors, despite being one of the first - and worst - states hit by the virus. The steps we've had to take to protect our families and our children from the virus have hurt many of us economically.

Small businesses are the backbone of our community, and many small businesses are struggling or have had to close. All levels of government are offering grant and loan programs to support businesses as they get back on their feet. In my office, we have been communicating information, providing links, and offering guidance when necessary, so that businesses can take advantage of the opportunities that are offered.

In the state House, I worked with my fellow legislators to draft legislation to offer specific support for Mom-and-Pop businesses. I am currently working with other representatives to craft a support program for restaurants, which have been hit especially hard.

Our local businesses will continue to need support, and I am committed to working daily to see that they get the help needed to survive in this new economic climate.

Every day, our families are struggling with the psychosocial impact of the pandemic. Many people have lost jobs or the businesses that sustained their families. Some are struggling to feed their families. My office and I are here to help you get access to the resources you need to get through this difficult period. We provide information, links, and support for people seeking assistance. We have helped innumerable people apply for and navigate the process of receiving Unemployment Compensation, as well as the federal Pandemic Unemployment Assistance (PUA) program. I am working with fellow representatives to encourage the federal government to renew the \$600 supplement to unemployment insurance.

It is a lifeline for so many families while the economy begins to rebound.

Early on, personal protective equipment (PPE) shortages put our front-line workers at risk. In Bucks County, I immediately began a community donation program to collect PPE. Generous donations from businesses and individuals allowed me to distribute hundreds of N-95 masks and other PPE to our first responders and workers at our assisted care facilities. In Harrisburg, I worked to pass legislation to provide PPE and other resources in areas of critical need.

Our next challenge is assuring that we provide a positive school experience for our children in the fall. It is essential to children - and their parents - to have scheduled and effective instruction so the entire family can resume a regular routine. Our local schools are diligently working to ensure the safety of the students, teachers, and support personnel as in-person instruction resumes. One thing our schools will need is additional money for mitigation measures, and I am in contact with our federal representatives about securing education specific funding.

This virus has strained our society and our economy like nothing before. There is much more to be done, but I know we will get through this because we have already accomplished so much together.
