DECISION

FINDINGS OF FACT:

1. The Zoning Hearing Board of Doylestown Township met the requirements of the Zoning Ordinance, the Municipalities Planning Code, and other relevant statutes as to legal notice of the hearing held.
2. The Applicants are the Owners of the Subject Property and therefore possessed of the requisite standing to make application to this Board.
3. The Subject Property is located in the R-1, Residential Zoning District of Doylestown Township. The lot area is .48 acres. The property accommodates the Applicants' single-family dwelling with usual and customary improvements.
4. Applicants seek to place a removable fence across a stormwater easement.
5. §175-16 H-3(c)3 of the Doylestown Township Zoning Ordinance prohibits fences within easement areas. Applicants seek a variance accordingly.
6. Applicants testified that fencing the rear yard would provide for greater use of the rear yard and access to the rear yard.
7. Applicants are willing to have the fence installed in removable sections, or a 10 foot wide gate across the easement area, to provide easy access by the easement holder as needed.
8. Applicants testified that other property owners in the area have similar fences.
9. Applicants' neighbors, Mr. Michael Kypreos and Diana DeVries, on the affected side, were present for the hearing and in support of the application.
10. Applicants sought to connect their rear yard fence to the Kypreos and Devries rear yard fence.
11. No one spoke in opposition to the application.
12. Doylestown Township took no position with regard to this application.

CONCLUSIONS OF LAW:

1. The Subject Property has been developed and used consistent with the requirements of the Ordinance.

2. The Applicants have presented evidence of sufficient factors to warrant the grant of the dimensional variance requested under the relaxed variance standard applicable to dimensional variance cases, as articulated by the Pennsylvania Supreme Court, in *Hertzberg v. Zoning Board of Adjustment of the City of Pittsburgh*, 554 Pa. 249, 721 A.2d. 43 (1998).

3. The competent evidence presented leads the Board to conclude that, if the variance relief is granted, there will be no negative impacts upon surrounding properties or uses.

4. The evidence establishes that the relief sought by the Applicants is the minimum variance necessary.

5. The variance sought will not alter the essential character of the neighborhood or district in which the Subject Property is located.

6. Accordingly, the Doylestown Township Zoning Hearing Board determined, unanimously, to grant the Applicants' request for relief, as is set forth hereafter.

ORDER

Upon consideration and after hearing, the Zoning Hearing Board of Doylestown Township hereby GRANTS a variance from §175-16 H-3(c)3 of the Doylestown Township Zoning Ordinance to permit Applicants to place a removable fence across a stormwater easement.

The relief granted is subject to the following conditions:

1. The fence must contain removable sections, or a 10 foot gate, where the fence crosses the easement area to facilitate removal in the event the easement area needs to be accessed.
2. Applicants are required to maintain, replace and repair the fence as needed.
3. Applicants bear the cost of removal and replacement of the fence sections to provide for Township maintenance access for the easement.
4. Applicants shall provide to the Township additional detail regarding the posts and gates for the fencing in relation to any physical structures supporting stormwater easement to assure that the fencing infrastructure does not interfere with the preexisting storm sewer infrastructure.
5. Applicants must obtain all appropriate permits prior to construction of the fence. This condition includes applying for a fence permit with Doylestown Township.
6. Applicants must comply with all other applicable governmental ordinances and regulations.
