Heritage Tree Program

# Doylestown Township Environmental Advisory Council

## Heritage Tree Program

### **What We Do & Program Goals**

Our heritage tree program recognizes trees in Doylestown Township that have a historic significance based on their age and size. Our program is run by our tree specialists, Don Richardson and Marty Brooks.

Each Heritage Tree Owner receives a certificate and is invited to attend a monthly meeting to receive recognition.

If you have a tree that might qualify for the Heritage Tree Program, call the Township office at 215-348-9915 to schedule a certification visit from Don and Marty.
